Robotville Festival At London Science Museum (Video)

by Zeeshan Tariq on December 4, 2011 · Leave a Comment

Today (December 4) was the last day for Robotville Festival at London Science Museum. The event was co-organized by EUNIC London (European Union National Institutes for Culture) and EU Cognitive Systems and Robotics Program and the European Commission Representation in the UK.

In case you missed it, here is your little bite on it. The festival was about the novelties in robotics. Over 20 exceptional robots were on display with their makers to tell visitors about their idea of making them. Lots of children seemed to enjoy this wondrous event as much as the grownups.

iCub, Dexmart, CHARLY looked pretty amazing to me. Watch this video without being disappointed to miss it out.
