

# This pizza-loving robot chef is being taught the craft by one of the masters

 A group of engineers from PRISMA Lab at the University of Naples Federico II, led by Prof. Bruno Siciliano, is developing a service robot that is mastering the craft of pizza-making. In order for RoDyMan to learn from the best, the project has engaged a famous Neapolitan pizzaiolo, Enzo Coccia, who had to wear a biokinetic sensorized suit so that the robot could record and replicate his movements. The goal of the project is to create a robot that can dynamically manipulate deformable objects, such as the pizza dough, making it...
