Springer Handbook of Robotics Wins Major Publishing Awards

Created at 2009-02-10 13:12:39

Last updated at 2009-02-10 13:22:36

The [Springer Handbook of Robotics](#), edited by Professors Bruno Siciliano and Oussama Khatib, has won two PROSE Awards presented by the American Association of Publishers, Professional and Scholarly Publishing Division.

On February 5th, in Washington, D.C., less than 9 months after its publication, the Handbook was recognized with the *PROSE Award in the Engineering & Technology Category*, as well as with the [*Award for Excellence in the overall Physical Sciences & Mathematics Category*](#).

The Handbook was Springer/s bestselling title in Engineering in 2008. It is available in both print and on-line editions.

Both editors-in-chief and most of the massive Handbook's 164 contributors and part editors are active members of the IEEE Robotics and Automation Society. Professor Siciliano is the society's current president.
