

Newslink: In the city where pizza originated, a robot chef is now learning to master the craft

beerbot (61) ▾ (/@beerbot) in newslink (/trending/newslink) • l'altro ieri

A group of engineers from PRISMA Lab at the University of Naples Federico II, led by Prof. Bruno Siciliano, is developing a service robot that is mastering the craft of pizza-making. In order for RoDyMan to learn from the best, the project has engaged a famous Neapolitan pizzaiolo, Enzo Coccia, who had to wear a biokinetic sensorized suit so that the robot could record and replicate his movements.
